

K-Love serves my community, my family and me by presenting us with commercial free, obscenity free, clean communication, public service announcements and music. This radio station is an asset to the community. It is a SAFE station for my children to tune-in to and I never worry what they will hear or learn there.

I have searched a long time for such a radio station and feel that it would be a substantial loss to my family and the community if KLOVE were forced to discontinue broadcast in my area.

With so much violence, unclean lifestyles, and disrespect for authority being presented to our youth through the school system, major television and radio networks and the public media in general, KLOVE is an important oasis for community to preserve the values that our country was founded upon. Please encourage them to continue broadcast in my area and throughout the great USA.
